

FLEXENERGY GT1300S GAS TURBINE GENERATOR

- Microturbine technology – large scale output 1.3MW at ISO
- Four proven GT333S drivetrains in a single intermodal 40' container
- Shared systems = reduced costs, built-in redundancy & footprint
- Ease of installation & maintenance approach
- Consolidated fuel input – electrical output

FLEX TURBINE™ GT333S modular drive train

FLEX TURBINE™ GT1300 – Four drive trains in a single ISO40 foot container

High reliability modular power solutions for the oil & gas industry

FLEXENERGY GT1300S GAS TURBINE GENERATOR

FLEXENERGY

- Field trial unit currently being factory tested – deployment 1Q16

High reliability modular power solutions for the oil & gas industry
